

A Garden Pathway

1-2-3

TRANSFORM
YOUR
HOME

These pavers create such a great impact and are so easy. Plus, they are an inexpensive project. I did them for one of my makeovers on Outer Spaces and I've used them around my garden. You can do whatever design aligns with your style; I did a European scroll for this one.

What you need:

- Krylon Outdoor Spaces - Satin Bark
- Krylon Outdoor Spaces - Satin Khaki
- Krylon Outdoor Spaces - Earth
- Krylon Easy-Tack Repositionable Adhesive
- Concrete Garden Pavers?
- Pattern Stencils General Supplies
- Newspaper or Drop Cloth?
- Painter's Tape

How and How Long:

1. Set up a spray area by covering a table or other work surface with newspaper or a drop cloth in a well-ventilated area. If using old or used pavers, clean well before painting, making sure they are free of dirt.
2. Paint pavers with Outdoor Spaces Satin Khaki and let dry.
3. Determine the stencil pattern you want. Use painters tape and mask off outside edges of pavers and any areas that you don't want painted.
4. Tape down your stencil to keep it from moving and then paint with Krylon Outdoor Spaces Earth.
5. To create an aged worn look, now paint the outside edges of pattern with Outdoor Spaces Satin Bark.
6. Remove stencil and let dry.
7. Repeat steps 1 through 5 for any additional patterns or details you would like on your paver.

Approximate project time: 2 hours.

What it Costs:

Approximate cost is \$24.
